***Allowable Subject Matter***

1. This office action is in response to the amendment after final filed on 01/24/06.
2. Claims 2 – 18 are allowed.
3. The following is a statement of reasons for the indication of allowable subject matter:

Applicant has cancelled claim 1 and amended independent claims 10, 18 (claims 2-9, 11-17 depend therefrom) in accordance with the office action dated 10/24/05. The present invention relates to method and apparatus shortening the convergence time of blind adaptive equalizers. Blind adaptation in equalizer is not new, where equalizer error is minimized. Prior art of record, taken individually or collectively, however, fails to fairly teach a particular method and apparatus for generating the tap coefficient error estimate by multiplying an adjusted equalizer error with a data sample in the blind adaptive equalizer, as claimed, in independent claims 10, 18 (claims 2-9, 11-17 depend therefrom). Thus, claims 2-18 are found to be novel and unobvious over prior art of record.
